The New Case for Bureaucracy

Charles T. Goodsell

The New Case for Bureaucracy Charles T. Goodsell

Charles Goodsell has long taken the position that U.S. bureaucracy is neither a generalized failure nor sinkhole of waste as mythologized by anti-government ideologues. Rather, it is one of the most effective and innovative sets of administrative institutions of any government in the world today. Indispensable to our democracy, it keeps government reliable and dependable to the citizens it serves. However, **The New Case for Bureaucracy** goes beyond empirically verifying its quality. Now an extended essay, written in a conversational tone, Goodsell expects readers to form their own judgments. At a time when Congress is locked in partisan and factional deadlock, he argues for the increased importance of bureaucrats and discusses how federal agencies must battle to keep alive in terms of resources and be strong enough to retain the integrity of their missions.
