*Impossible Realities* is one of the first books to examine the science behind psychic and paranormal activity. A former Defense Department expert on artificial intelligence, Maureen Caudill provides evidence for a wide range of paranormal phenomena.

*Impossible Realities* presents a wealth of anecdotal and empirical evidence to prove the existence (and power) of:

psychokinesis (most famously spoon bending) remote viewing energy healing telepathy, animal telepathy precognitions survival after death reincarnation

Caudill presents the strongest case yet for bringing paranormal phenomena from the margins into the realm of the normal and credible. This is a book both for true believers and skeptics alike.
