## **In Defense of Deflation (Financial and Monetary Policy Studies) Philipp Bagus**

This book analyses the causes and consequences of deflation. In contrast to the widespread belief that deflation would be harmful to the economy as a whole, the author argues that free market deflation is liberating and beneficial. Several myths of deflation are exposed and the reasons for the widespread deflation phobia that serves to justify expansionary monetary policy, i.e., inflation are investigated. Two historical case studies, the growth deflation in the US after the Civil War and the bank credit deflation in Germany during the Great Depression are discussed to illustrate the points made in the theoretical analysis of deflation.

#### **Darlene Gutierrez:**

As a university student exactly feel bored for you to reading. If their teacher questioned them to go to the library or even make summary for some reserve, they are complained. Just tiny students that has reading's heart or real their leisure activity. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this In Defense of Deflation (Financial and Monetary Policy Studies) can make you sense more interested to read.
