Quickly acquire the knowledge and skills you need to confidently administer, score, and interpret the CAS.

Designed to expand the traditional measurement of intelligence, the Das-Naglieri Cognitive Assessment System (CAS) measures the cognitive/neuropsychological functioning of children and adolescents.

Organized into four scales, the CAS assesses Planning, Attention, Simultaneous, and Successive processes. In order to use it properly, professionals need an authoritative source of advice and guidance on how to administer, score, and interpret this test. Written by one of the cocreators of the CAS test, Essentials of CAS Assessment is that source.

Each concise chapter features numerous callout boxes highlighting key concepts, bulleted points, and extensive illustrative material, as well as test questions that help you gauge and reinforce your grasp of the information covered.

The initial chapters of Essentials of CAS Assessment provide step-by-step guidance on test administration, scoring, and interpretation.
