Obstetric Medicine

Catherine Nelson-Piercy, Joanna Girling

Obstetric Medicine Catherine Nelson-Piercy, Joanna Girling

Medical problems in pregnancy are common. They are responsible for much maternal and fetal morbidity and mortality. Recognition of the importance of maternal medicine is now reflected in the content of the MRCOG exam, core training and higher training in both obstetrics and medicine. The book will be invaluable for trainees and consultants to 'test themselves' using the different methods, as well as read about medical problems in pregnancy that they may not yet have encountered.
