**The true, declassified account of CIA operative Tony Mendez's daring rescue of American hostages from Iran that inspired the critically-acclaimed film directed by and starring Ben Affleck, and co-starring John Goodman, Alan Arkin, and Bryan Cranston.**

On November 4, 1979, Iranian militants stormed the American embassy in Tehran and captured dozens of American hostages, sparking a 444-day ordeal and a quake in global politics still reverberating today. But there is a little-known drama connected to the crisis: six Americans escaped. And a top-level CIA officer named Antonio Mendez devised an ingenious yet incredibly risky plan to rescue them before they were detected.

Disguising himself as a Hollywood producer, and supported by a cast of expert forgers, deep cover CIA operatives, foreign agents, and Hollywood special effects artists, Mendez traveled to Tehran under the guise of scouting locations for a fake science fiction film called *Argo*. While pretending to find the perfect film backdrops, Mendez and a colleague succeeded in contacting the escapees, and smuggling them out of Iran. Antonio Mendez finally details the extraordinarily complex and dangerous operation he led more than three decades ago. A riveting story of secret identities and international intrigue, *Argo* is the gripping account of the history-making collusion between Hollywood and high-stakes espionage.
