Winner, Mom's Choice Silver Award**

After their dog Bubbles chases after the recycling truck, Tiana and her family set off on a search to the Materials Recovery Facility, learning about recycling along the way. Exploring the MRF on their adventure, they see how papers, plastics, metals, and glass are collected, sorted, and baled, and then sent to be made into new products. Based on facts about the process of recycling in industrial countries, this book will help children understand the importance of recycling to save natural resources, as well as how they can take action in their own communities.
