## **Petroleum Production Engineering, A Computer-Assisted Approach** Boyun Guo PhD

Petroleum Production Engineering, A Computer-Assisted Approach provides handy guidelines to designing, analyzing and optimizing petroleum production systems. Broken into four parts, this book covers the full scope of petroleum production engineering, featuring stepwise calculations and computer-based spreadsheet programs. Part one contains discussions of petroleum production engineering fundamentals, empirical models for production decline analysis, and the performance of oil and natural gas wells. Part two presents principles of designing and selecting the main components of petroleum production systems including: well tubing, separation and dehydration systems, liquid pumps, gas compressors, and pipelines for oil and gas transportation. Part three introduces artificial lift methods, including sucker rod pumping systems, gas lift technology, electrical submersible pumps and other artificial lift systems. Part four is comprised of production enhancement techniques including, identifying well problems, designing acidizing jobs, guidelines to hydraulic fracturing and job evaluation techniques, and production optimization techniques.

\*Provides complete coverage of the latest techniques used for designing and analyzing petroleum production systems

\*Increases efficiency and addresses common problems by utilizing the computer-based solutions discussed within the book

\* Presents principles of designing and selecting the main components of petroleum production systems

### **From reader reviews:**

#### **Mary Edick:**

Have you spare time for the day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a move, shopping, or went to typically the Mall. How about open as well as read a book entitled Petroleum Production Engineering, A Computer-Assisted Approach? Maybe it is for being best activity for you. You know beside you can spend your time along with your favorite's book, you can smarter than before. Do you agree with it has the opinion or you have different opinion?

#### **Jules Thompson:**

A lot of people always spent their free time to vacation or even go to the outside with them household or their friend. Do you know? Many a lot of people spent many people free time just watching TV, or playing video games all day long. If you need to try to find a new activity this is look different you can read some sort of book. It is really fun for yourself. If you enjoy the book that you just read you can spent all day long to reading a book. The book Petroleum Production Engineering, A Computer-Assisted Approach it is quite good to read. There are a lot of people who recommended this book. These folks were enjoying reading this book. In the event you did not have enough space to create this book you can buy typically the e-book. You can m0ore simply to read this book from a smart phone. The price is not to cover but this book offers high quality.

#### **James Sanford:**

Is it you who having spare time subsequently spend it whole day by simply watching television programs or just laying on the bed? Do you need something new? This Petroleum Production Engineering, A Computer-Assisted Approach can be the respond to, oh how comes? The new book you know. You are therefore out of date, spending your time by reading in this completely new era is common not a nerd activity. So what these books have than the others?

#### **Roy Hanson:**

You can get this Petroleum Production Engineering, A Computer-Assisted Approach by look at the bookstore or Mall. Just simply viewing or reviewing it can to be your solve issue if you get difficulties for your knowledge. Kinds of this guide are various. Not only by written or printed but also can you enjoy this book by simply e-book. In the modern era including now, you just looking by your local mobile phone and searching what your problem. Right now, choose your personal ways to get more information about your publication. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose suitable ways for you.
