Colombia (Classic Reprint) Phanor James Eder

Though, by virtue of the possession of literary abilities to which I can lay no claim, or by longer residence in that hospitable land, there are others better fitted to write on Colombia, yet I do not believe there is any foreigner who has had the opportunities that have been presented to me in the course of my practice for coming into such close touch with so many different spheres of activity in widely scattered parts of the country. United by ties of birth, family, friendships, and business relations to Colombia, and consequently appreciating, I hope, the native point of view, and at the same time being aware of the attitude of the Northerner, I felt that in undertaking this book for the South American Series I could render a double service, a service to the Colombians in sympathetically interpreting their country to the Anglo-Saxons, and a service to the English and American business man, interested actually or potentially in Colombia in setting before him a true picture of what he wants to know. If I have succeeded in keeping up to the high standard set by the authors of the other volumes in the South American Series and in presenting a true, fair, and sympathetic general picture of present-day commercial and industrial conditions in Colombia, I shall deem myself well rewarded for the time snatched from my professional and leisure hours.
