As a college student, I exactly feel bored in order to read. If their teacher questioned them to go to the library or even make a summary for some book, they are complained. Just small students that have reading's soul or real their leisure activity. They just do what the educator wants, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that looking at is not important, boring and can't see colorful photos on there. Yeah, it is being complicated.
